Stop relying on chance for sanitization in your operations, and start counting on an easy to use, simple protocol that effectively removes 99.999% of the most common foodborne pathogens within 60 seconds. Switch to Sani Professional® No-Rinse Sanitizing Multi-Surface Wipes and reduce the risk of cross-contamination.

**A Convenient Way To Sanitize… One Wipe At A Time.**

**Features**
- Fast drying formula!
- Consistently Effective: each wipe always releases the right level of Quat
- Modern packaging with color-coded system:
  - Red for sanitizing
  - Black for cleaning
  - Blue for sanitizing
- Robust wipe designed to effectively pick up debris

**Active Ingredients:**
Didecyl dimethyl ammonium chloride & Alkyl dimethyl benzyl ammonium chloride
EPA Registered Quat System

**Sanitization Directions**
For visibly soiled surfaces use a wipe to clean the surface to be treated. Sanitize with additional wipes. Wipe enough for treated area to remain visibly wet for one minute. Let air dry. No rinsing required.

**Disinfection Directions**
Use a wipe to clean the surface to be treated. Disinfect with additional wipes. Wipe enough for treated area to remain visibly wet for 5 minutes. Let air dry. No rinsing required on food contact surfaces.
- Contact time for *Staphylococcus aureus* and *Pseudomonas aeruginosa* is 5 minutes.
- Contact time for Severe Acute Respiratory Syndrome-Related Coronavirus 2 (SARS-CoV-2) Strain USA-WA1/2020 is 1 minute.

**Efficacy:**
Effective against pathogens that contaminate hard, nonporous food contact surfaces
- *Escherichia coli*
- *Staphylococcus aureus*
- *Shigella boydii*

**Where to Use:**
- **Back of House**
  - Food prep tables
  - Scales
  - Countertops
  - Non-wood cutting boards
  - Food cases & refrigerators
- **Front of House**
  - Tables
  - Chairs
  - Countertops
  - Bar tops

**Other Benefits:**
- EPA registered 9480-13
- NSF registered D2
- Food Code compliant
- Use as part of your HACCP plan
- Easy dispensing

**Now proven effective against the COVID-19 Virus**

### AND TOSS THE TRADITIONAL RAG

#### FOOD CODE COMPLIANCE

<table>
<thead>
<tr>
<th></th>
<th>Each Sani Professional® wipe consistently releases the right level of quat to kill 99.999% of common foodborne pathogens within 60 seconds.¹</th>
<th>Rags are reused without regular quat testing resulting in inconsistent efficacy and risk of cross-contamination.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>No-Rinse Sanitizing Wipes are disposed after use. Prevents risk of cross-contamination or poor protocol practices that could lead to violations.</td>
<td>Prone to violation due to common practice of leaving rags outside sanitizing solution after use.</td>
</tr>
</tbody>
</table>

#### EASE OF USE

<table>
<thead>
<tr>
<th></th>
<th>No mixing or measuring. Simply Wipe. Toss. Done! Motivates staff to properly and regularly.</th>
<th>Prone to human error of not properly measuring the required quat sanitizing level.</th>
</tr>
</thead>
</table>

#### LIABILITY

<table>
<thead>
<tr>
<th></th>
<th>Pre-moistened wipe format eliminates spills, slips and potential liability.</th>
<th>Bucket solution is prone to spills which could lead to slips and potential liability.</th>
</tr>
</thead>
</table>

#### PROTOCOL INTEGRATION

<table>
<thead>
<tr>
<th></th>
<th>Easy to train employees which typically results in increased motivation to use.</th>
<th>Lack of knowledge; English as a second language; unsure of quat level; unmotivated or too busy to test/retest and recharge bucket.</th>
</tr>
</thead>
</table>

#### GUEST EXPERIENCE

<table>
<thead>
<tr>
<th></th>
<th>Sani Professional® wipes are perceived to be a more sanitary and professional dining experience.</th>
<th>Use of rags are unsightly and off-putting to guests. Poor perception of a clean restaurant.</th>
</tr>
</thead>
</table>
